## **Survey of Swiss companies on payment methods SNB to launch own survey in 2021**

The Swiss National Bank is conducting an online survey this year of companies operating in Switzerland. The SNB will ask 2,000 companies to answer questions relating to payment methods, with a focus on cash.

The aim of the survey is to obtain information on the use of cash and to identify any changes as early as possible. The questions will thus investigate the use and acceptance of various payment methods, motives for using cash as a store of value, and the supply and distribution of cash.

The survey will be conducted in collaboration with the market research institution gfs.bern. The SNB will provide information on the results after they have been evaluated.

All information regarding this survey is available on the [SNB website](#).
